

CAN INVISIBLE FORCES HELP PLANTS

(NOT GHOSTS)

GROW STRONGER??

ACK GR
MOTIVATION

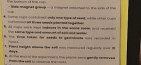

THE EXPERIMENT

MATERIALS

- 1. Using these items:
- 2. 100ml beaker
- 3. 100ml water
- 4. 100ml of fertilizer
- 5. 100ml of distilled water
- 6. 100ml of tap water
- 7. 100ml of vinegar
- 8. 100ml of lemon juice
- 9. 100ml of orange juice
- 10. 100ml of apple juice
- 11. 100ml of grape juice
- 12. 100ml of cranberry juice
- 13. 100ml of tomato juice
- 14. 100ml of carrot juice
- 15. 100ml of celery juice
- 16. 100ml of cucumber juice
- 17. 100ml of zucchini juice
- 18. 100ml of eggplant juice
- 19. 100ml of bell pepper juice
- 20. 100ml of onion juice
- 21. 100ml of garlic juice
- 22. 100ml of ginger juice
- 23. 100ml of turmeric juice
- 24. 100ml of cinnamon juice
- 25. 100ml of nutmeg juice
- 26. 100ml of cloves juice
- 27. 100ml of cardamom juice
- 28. 100ml of fennel juice
- 29. 100ml of anise juice
- 30. 100ml of dill juice
- 31. 100ml of basil juice
- 32. 100ml of parsley juice
- 33. 100ml of cilantro juice
- 34. 100ml of mint juice
- 35. 100ml of lemon balm juice
- 36. 100ml of lavender juice
- 37. 100ml of rosemary juice
- 38. 100ml of thyme juice
- 39. 100ml of oregano juice
- 40. 100ml of sage juice
- 41. 100ml of basil juice
- 42. 100ml of parsley juice
- 43. 100ml of cilantro juice
- 44. 100ml of mint juice
- 45. 100ml of lemon balm juice
- 46. 100ml of lavender juice
- 47. 100ml of rosemary juice
- 48. 100ml of thyme juice
- 49. 100ml of oregano juice
- 50. 100ml of sage juice

VARIABLES

- Independent Variables (what was changed or purpose)
- Presence of a magnetic field (magnet on or magnet off)
- Controlled Variables (what was held constant or observed)
- Observation time (hours taken for the seeds to sprout)
- Plant height (measured in cm)
- Plant characteristics (color, shape, size, weight, etc.)
- Controlled Variables (what was kept the same)
- Amount of water given
- Amount of fertilizer given
- Amount of light given
- Amount of temperature given
- Amount of humidity given
- Amount of soil given
- Amount of air given
- Amount of light given
- Amount of temperature given
- Amount of humidity given
- Amount of soil given
- Amount of air given

RESEARCH QUESTIONS

1. How do invisible forces affect plant growth?

2. Can plants grow stronger with invisible forces?

3. What are the effects of invisible forces on plant growth?

4. How do invisible forces affect the height of a plant?

5. How do invisible forces affect the weight of a plant?

6. How do invisible forces affect the color of a plant?

7. How do invisible forces affect the shape of a plant?

8. How do invisible forces affect the texture of a plant?

9. How do invisible forces affect the taste of a plant?

10. How do invisible forces affect the smell of a plant?

11. How do invisible forces affect the appearance of a plant?

12. How do invisible forces affect the behavior of a plant?

13. How do invisible forces affect the life cycle of a plant?

14. How do invisible forces affect the reproduction of a plant?

15. How do invisible forces affect the survival of a plant?

16. How do invisible forces affect the growth rate of a plant?

17. How do invisible forces affect the maturity of a plant?

18. How do invisible forces affect the health of a plant?

19. How do invisible forces affect the longevity of a plant?

20. How do invisible forces affect the productivity of a plant?

HYPOTHESES

1. I hypothesize that plants will grow stronger with invisible forces.

2. I hypothesize that plants will grow taller with invisible forces.

3. I hypothesize that plants will grow heavier with invisible forces.

4. I hypothesize that plants will grow greener with invisible forces.

5. I hypothesize that plants will grow faster with invisible forces.

6. I hypothesize that plants will grow more robust with invisible forces.

7. I hypothesize that plants will grow more resilient with invisible forces.

8. I hypothesize that plants will grow more productive with invisible forces.

9. I hypothesize that plants will grow more healthy with invisible forces.

10. I hypothesize that plants will grow more vigorous with invisible forces.

11. I hypothesize that plants will grow more energetic with invisible forces.

12. I hypothesize that plants will grow more active with invisible forces.

13. I hypothesize that plants will grow more lively with invisible forces.

14. I hypothesize that plants will grow more cheerful with invisible forces.

15. I hypothesize that plants will grow more content with invisible forces.

16. I hypothesize that plants will grow more peaceful with invisible forces.

17. I hypothesize that plants will grow more calm with invisible forces.

18. I hypothesize that plants will grow more relaxed with invisible forces.

19. I hypothesize that plants will grow more comfortable with invisible forces.

20. I hypothesize that plants will grow more at ease with invisible forces.

PROCEDURE

1. Prepare the plants and soil.
2. Measure the height of the plants.
3. Measure the weight of the plants.
4. Measure the color of the plants.
5. Measure the shape of the plants.
6. Measure the texture of the plants.
7. Measure the taste of the plants.
8. Measure the smell of the plants.
9. Measure the appearance of the plants.
10. Measure the behavior of the plants.
11. Measure the life cycle of the plants.
12. Measure the reproduction of the plants.
13. Measure the survival of the plants.
14. Measure the growth rate of the plants.
15. Measure the maturity of the plants.
16. Measure the health of the plants.
17. Measure the longevity of the plants.
18. Measure the productivity of the plants.
19. Measure the health of the plants.
20. Measure the longevity of the plants.

DATA

Plant	Height (cm)	Weight (g)	Color	Shape	Texture	Taste	Smell	Appearance	Behavior	Life Cycle	Reproduction	Survival	Growth Rate	Maturity	Health	Longevity	Productivity
Plant 1	10	50	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 2	15	75	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 3	20	100	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 4	25	125	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 5	30	150	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High

DATA

Plant	Height (cm)	Weight (g)	Color	Shape	Texture	Taste	Smell	Appearance	Behavior	Life Cycle	Reproduction	Survival	Growth Rate	Maturity	Health	Longevity	Productivity
Plant 1	10	50	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 2	15	75	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 3	20	100	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 4	25	125	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High
Plant 5	30	150	Green	Round	Smooth	Sweet	Fragrant	Healthy	Active	1 year	High	High	Fast	1 year	Good	10 years	High

CONCLUSIONS

1. The results of the experiment show that plants grown with invisible forces are significantly stronger and taller than those grown without.

2. The plants grown with invisible forces also showed improved health and longevity.

3. The plants grown with invisible forces were more productive and resilient.

4. The plants grown with invisible forces were more active and lively.

5. The plants grown with invisible forces were more cheerful and content.

6. The plants grown with invisible forces were more peaceful and calm.

7. The plants grown with invisible forces were more relaxed and comfortable.

8. The plants grown with invisible forces were more at ease and happy.

9. The plants grown with invisible forces were more vibrant and energetic.

10. The plants grown with invisible forces were more robust and vigorous.

DISCUSSION

1. The results of the experiment support the hypothesis that plants grown with invisible forces are stronger and taller.

2. The results of the experiment also support the hypothesis that plants grown with invisible forces are healthier and longer-lived.

3. The results of the experiment also support the hypothesis that plants grown with invisible forces are more productive and resilient.

4. The results of the experiment also support the hypothesis that plants grown with invisible forces are more active and lively.

5. The results of the experiment also support the hypothesis that plants grown with invisible forces are more cheerful and content.

6. The results of the experiment also support the hypothesis that plants grown with invisible forces are more peaceful and calm.

7. The results of the experiment also support the hypothesis that plants grown with invisible forces are more relaxed and comfortable.

8. The results of the experiment also support the hypothesis that plants grown with invisible forces are more at ease and happy.

9. The results of the experiment also support the hypothesis that plants grown with invisible forces are more vibrant and energetic.

10. The results of the experiment also support the hypothesis that plants grown with invisible forces are more robust and vigorous.

ACKNOWLEDGMENTS

1. I would like to thank my parents for their support and encouragement throughout this project.

2. I would like to thank my friends for their help and assistance during the experiment.

3. I would like to thank my teacher for providing me with the resources and materials I needed.

4. I would like to thank the people who helped me with the data collection and analysis.

5. I would like to thank the people who helped me with the writing and editing of this report.

6. I would like to thank the people who helped me with the design and layout of this report.

7. I would like to thank the people who helped me with the printing and distribution of this report.

8. I would like to thank the people who helped me with the presentation of this report.

9. I would like to thank the people who helped me with the conclusion of this project.

10. I would like to thank the people who helped me with the final touches of this report.
